01 Make a plan for everyone

Start with one print or color you love. Coordinate the rest with clothes, shoes and layers you already own.

Person	Piece / look	Size*	Already own	To add / qty

*Use the size chart on each exact product page. Check the units and measurements shown; age labels alone do not confirm fit.

02 Check before you order

- ☐ **What one selection includes**
Where pieces are sold separately, add a size for each wearer.
- ☐ **Sizes, quantities and total**
Review every bag line and the combined price.
- ☐ **Delivery for your destination**
Check current estimates and allow time to try outfits on.
- ☐ **Comfort and a backup**
Try the whole look with shoes and layers; keep a backup ready.

03 Choose a look to build around
